

The 9th International Conference on Applied Geophysics
(GEOPHYSICS CHIANG MAI 2023)
Chiang Mai, Thailand

Editor's Note

Welcome to the Geophysics Conference in Chiang Mai, Thailand! This marks the fourth iteration of the conference in this city, with prior assemblies in 2000, 2004, and 2008. We're excited to host you again in 2023 on November 23rd -24th.

We are pleased to announce the acceptance of seven full papers and thirty-seven abstracts, which include three keynote abstracts. These papers and abstracts will be presented in either oral or poster sessions during the conference. All of these contributions will be featured in the online edition of the conference proceedings. The selected contributions cover various disciplines and topics in geophysics, including Petroleum Geophysics, CCUS Technology, Computational and Mathematical Geophysics, Seismology, Near-Surface Geophysics, and Geothermal Geophysics.

We look forward to insightful discussions and valuable contributions that will enhance our understanding of these vital aspects of geophysics. We extend our gratitude to the authors, reviewers, editorial teams, and all contributors, who have played a crucial role in shaping these proceedings. Thank you for being a part of this enriching experience.

Best regards,

Niti Mankhemthong
Editor-in-Chief
